Radon

SANTA BARBARA

20'

For over 50 years, from Washington to the Hawaiian Islands, Radon has been the preferred vessel for commercial and sport use alike.

Radons are built for speed, agility and durability. Radon is the quintessential boat for fishing, diving, surfing or just cruising.

COMPANY INFO

Our company is built on over 50 years of experience in the commercial fishing and diving industries. There are thousands of Radon boats in use today throughout the Pacific in both the commercial and sport applications. We have rigorously tested and proven the progressive boat construction concepts which make Radon boats what they are today: **HARDCORE** boats built for success.

Donald Radon, founder and President of D.R. Radon Boat Building, Inc. is one of the original Radon family designers and builders. He has worked diligently and tirelessly over his 50 years to design and build boats that are not only durable, agile, and fast, but stylish and beautiful as well. Don personally oversees the construction of each and every Radon boat that is fabricated in his yard. His exceptionally high standards and attention to detail are evident in every Radon boat that leaves his yard for the open sea.

D.R. Radon Boat Building, Inc. builds a limited number of custom boats per year, each built with the specific needs of the customer in mind.
